World Review of Aviation • Astronautics • Avionics

incorporating

FLYING REVIEW INTERNATIONAL

Index for Year 1975 — Volume XXX

PRINCIPAL TOPICS

1 Air forces of the World — 1975
US-European cooperation
Facets of the future fighter spectrum

2 The Canadian aerospace industry
Civil aviation security
The McDonnell Douglas F-15

3 Helicopters — special report
Airbone computers go digital
Canadian air transportation

4 Aircraft engines report
Air cargo development

5 The European aerospace industry
Air traffic control automation
Third-level carriers

6 The French aerospace industry
The Apollo-Soyuz mission

7 Paris Air Show report
The West German aerospace industry
The Boeing 747SP and Airbus A.300

8 The F-16 wins the European fighter contest
The Italian aerospace industry
The SALT agreement: problems and prospects
Electronics products at the Paris Show

9 The British aerospace industry
British air transport
A renaissance of the airship?
The Hughes YAH-64 helicopter

10 IATA " special issue " — Pillars of world air transport
South American wide-body markets
Concorde prepares to enter service
PanAm — the point of no return?

11 Europe in search of a civil aircraft policy
The Shorts SD3-30
The Sea Harrier and AV-8B
Simulators and visual systems

12 Telecom 75
Legal aspects of space telecommunications
Agricultural aviation
Industrial and marine gas turbine summary

SUBJECT INDEX

CIVIL AVIATION

a) Air transport

Air Alpes — from mountain-hopping to third-level carrier 1/73
Air cargo — overloading the bandwagon? 4/403
Air Inter fights the solvency battle 1/68
Airline orders: 1/11; 2/115; 3/211; 5/447; 6/584; 7/739; 9/927; 10/1027; 11/1143; 12/1235
Airline results 1973/74: 5/447; 7/739; 10/1029
Air traffic control automation *(Dan Boyle)* 5/491
Air transport terrorism — assigning the guilt *(R.-L. Perret)* 7/803
Arab air carrier operations (table) 10/1028
Association for what? (Viewpoint) 5/538
The associative principle — its application in the air transport industry *(Francis Tate)* 5/521
Average costs per seat-kilometer 1963-72 (table) 2/117
Blueprint for a public service industry *(Knut Hammarskjöld)* 10/1051
British air transport stagnates *(Derek Wood)* 9/967
Brunei and Sabah — the civil aviation scene in *(Esmond Ward)* 10/1076
Canada's regional carriers 3/282
Canadian air transportation (CP Air versus Air Canada) 3/279
Canadian STOL services — the DHC Dash 7 and Air Transit 1/163
Civil aviation security (editorial) 2/131
Clouds over the Pacific (JAL and Qantas disputes with US) 1/13
Concorde — airline viewpoints 10/1071
Ford's airline deregulation proposals 12/1237
Future UK civil aviation policy (with UK London-New York traffic table) 9/929
Gulf Air today *(Esmond Ward)* 9/969
ICAO estimate of world airline traffic in 1974 3/212
ICAO security conventions: who has ratified what? (table) 2/178
IATA air cargo automation research project 4/401
IATA's Oslo AGM 11/1149
North Atlantic tariffs — a pragmatic reassessment 1/12
Norway's community air network completed *(James Ferguson)* 2/165
PanAm — has it reached the point of no return? *(Arthur Wallis)* 10/1073
Pillars of world air transport (IATA airlines data) 10/1088
Scotland takes a lead in ATC 1/70
Security in air transport — achievements and expectations 1/176
Sikorsky S-61 helicopter shortage 2/120
South America — the market for wide-bodied airliners in *(J. P. Geddes)* 10/1052
Third-level scene, the *(Marc Grangier)* 5/500
Troubled air transport industry, a (editorial) 7/771
Transatlantic traffic, IATA airlines, 1974 5/448
TWA badly in need of miracles 10/1034
US airlines battle for passengers (editorial) 1/23
US air transport trends, 1974 (FAA table) 6/586
Western European scheduled airlines, 1974 and 1973 results compared 4/319
Yugoslav airline operations 3/213

b) General aviation

Agricultural aviation: feeding the world 12/1271
Agricultural aviation in the East Bloc 12/1285
Agricultural aircraft, new engines for 12/1283
Bizjet market, the current situation and new developments *(Marc Grangiers)* 4/378
Cessna 441 — a newcomer on the twin turboprop market 11/1150
Cessna " Expo 75 " 1/17
Commercial helicopter operations: riding high on the fuel shortage 2/268
Corvette programme: 1975 a decisive year 1/71
Cranfield 75 report 11/1180
French general aviation sector 6/679
Gates Learjet HARV 9/978
HAA Show: prosperity is the keynote 3/219
Mitsubishi MU-2L (*Interavia* flight report) 11/1191
Reading Show 1975 (photo survey) 8/870
Reading 1975: little new to offer *(James Holahan)* 9/993
US general aviation aircraft shipments (table) 3/216
US general aviation scene: between two slumps? 2/167

c) Airports

Airport 75 exhibition, Brussels 11/1145
Airport 75 — Equipment survey (Industrial roundup) 12/1269
European airports pressured by noise problems *(Klaus Höhle)* 2/171
ICAA 15th annual congress at Brussels 9/931
International airport traffic 1974: selected results (table) 3/321
Lyons-Satolas: an instrument of regional development *(Klaus Höhle)* 7/798
Montreal's Mirabel Airport — will simplicity work? *(John Brindley)* 4/398
Munich II ready in six years' time? 9/934
Must airports always be scapegoats? (Viewpoint) 3/300
Security equipment for airport use 2/179
Swiss airport dilemma 8/897
Swiss international airports: 1974 traffic (table) 4/320
West German international airports: 1974 traffic (table) 4/320
World's principal airports: traffic 1973-1974 (table) 7/740

d) Civil aircraft

Airbus Industrie studying A.300 growth 7/791
Airliners 1975 (photos) 10/1085
Boeing transports: technology trends 1/66
Boeing 747 SP: shorter — faster — farther 7/787
Cessna 441: a newcomer on the twin turboprop market 11/1150
Civil aircraft sales and deliveries (table), 1974 2/120
Civil airliner sales and deliveries, January-June 1975 (table) 9/928
Concorde description 10/1115
Concorde interior engineering *(Max Nibloe)* 11/1202
Concorde now *(Norman Barfield)* 10/1056
Corvette programme: 1975 a decisive year 1/71
Dash 7 and Airtransit: STOL the Canadian way 2/163
Dauphin — profiting from Gazelle improvements 8/867
DC-X-200; the next step for McDonnell Douglas 8/852
Europe's major civil aircraft programmes 5/474
Gates Learjet HARV: first in a new generation 9/978
Helicopters: military necessity, civil workhorse 3/239
Helicopters: world's current range, 1975 3/293
Mitsubishi MU-2L (*Interavia* flight report) 11/1191
Shorts SD3-30: the commuterliner grows up 11/1162
Sikorsky S-61, shortage of 2/120
Sikorsky S-76: Sikorsky broadens its product range 3/291
Soviet whirling wings 3/267
Third-level airliner types 5/503
TriStar Dash-250: another range and payload increase 4/323

MILITARY AVIATION

a) Military aircraft

AerMacchi MB.339 unveiled: successor to MB.326 5/535
AMST prototypes leave the drawing board 1/51
AWACS E-3A (diagram) 6/588
Backfire — Soviet counter to the B-1 *(Georgiy Panyalev)* 11/1193
Bell YAH-63 AAH helicopter details 8/840
Boeing's Compass Cope design 1/42
Dassault-Breguet Mirage family continues to grow *(Michael Brown)* 1/26
Dassault-Breguet: More on the Mirage family 10/1032
European fighter contest: F-16 wins 7/747
Europe's major military aircraft programmes 5/478
Fairchild A-10: production begins *(J. P. Geddes)* 9/975
General Dynamics F-16 choice: a lesson for the future (Phillippe Grasset) 8/883
General Dynamics (Y)F-16: design considerations and evolution 1/39
General Dynamics (Y)F-16: European co-production programme 8/874
Hawker Siddeley Harrier: the horizon widens *(Derek Wood)* 11/1175
Helicopters — military necessity, civil workhorse 3/239
Helicopters: US military efforts 3/248
Helicopters: world's current range — 1975 3/293
Hughes YAH-64 AAH helicopter *(J. P. Geddes)* 9/972
Jet VTOL concepts reviewed 4/377
Kawasaki C-1: tactical transport with a difference 5/515
Long-range patrol aircraft (Canada) 2/151
McDonnell Douglas F-15: high performance *(J. P. Geddes)* 2/190
McDonnell Douglas YC-15 AMST prototype flies 10/1028
McDonnell Douglas F-16 programme schedule (graphs) 3/217, 4/322
McDonnell Douglas/Northrop F-18 US Navy Air Combat Fighter awaits approval 8/872
Mitsubishi FS-T2 kai in flight test 9/1000
Panavia 200 MRCA: development tempo quickens *(Douglas Chopping)* 11/1212
Panavia 200 MRCA: procurement status 11/1146
Panavia 200 MRCA: programme status 5/477
Rockwell International's B-1 bomber at a critical point *(J. P. Geddes)* 2/132
Saab JA37 Viggen in flight test; 37E in European contest 2/187
Shin Meiwa US-1 flying boat extends its capabilities 4/416
Soviet whirling wings 3/267
UTTAS: a new concept in helicopters 9/991

b) Miscellaneous

Airborne Early Warning: long-range protection at a cost *(Dan Boyle)* 10/1104
Air forces of the world — 1975 1/79
Castles in the air: four countries in search of the impossible (editorial on European fighter contest) 6/583
Cost escalation on USAF programmes 3/132
Facets of the future fighter spectrum — part 2 *(Eric Wooton)* 1/35
French tactical missile production 6/682
Helicopters: US military efforts 3/248
Italian Air Force seeks additional funds 8/887
SALT II arms control agreement: problems and prospects (Henry Simmons) 8/854
Soviet ballistic missiles 8/858
US aerospace arms exporters, selected (table) 6/588
US and Soviet strategic missiles compared (table) 8/856

SPACE

Apollo-Soyuz: America and the Soviet Union join in space *(Irwin Stambler)* 6/695
European civil satellites (table) 5/482
European major space ventures 5/481
French space activities: growing emphasis on European programmes 6/667
India's first scientific satellite 1/16
International law in space *(R.-L. Perret)* 12/1256
Japanese Kiku satellite launched by N rocket 11/1147
McDonnell Douglas Astronautics shifts with the market *(J. P. Geddes)* 1/56
Modular spacecraft to increase shuttle versatility 5/519
NASA plans 23 launches in 1975 3/218
NASA research and development budgets 1974-76 (table) 4/326
Satellites to date (tables) 3/218; 7/744; 11/1148
Spacelab programme progresses 5/454
Spacelab update 8/842
Symphonie for emergency aid 12/1267
Symphonie in blue (editorial) 2/131
Telecom 75 telecommunications exhibition, Geneva: exhibitors list 10/1116
Telecom 75 report: applications satellites to the fore *(Dan Boyle)* 12/1252
Viking Mars Lander on its way 10/1031

ENGINES

Agricultural aircraft, new engines for 12/1283
Alternative fuels research, NASA 1/15
French engine companies: broadening the business base 6/647
Garett AiResearch industrial and marine gas turbines 12/1305
Gas turbines leave the air — 9; conclusion and update *(Julius Gegerle)* 12/1293
General Electric F101 engine (for B-1) 2/138
Industrial and marine gas turbine data table 12/1303
Helicopter powerplant progress 3/252
Jet VTOL engine concepts reviewed 4/375
Pratt & Whitney JT8: a new lease of life? 1/54
Pratt & Whitney JT10D consortium finalization 12/1242
Rolls-Royce RB.199: developing slowly but surely 4/339
Ten-tonne engines (editorial) 4/335
Ten-tonne engines: shaping up for the sales battle 4/336
Turboméca DF600 8/839
Turboméca: Gas turbines leave the air — 8 *(Julius Gegerle)* 4/395
Turboméca's new 1,800 shp turboshaft 4/341

ELECTRONICS

Aérospatiale's growth in Automatic Test Equipment *(Dan Boyle)* 9/999
Airbone computers go digital *(Irwin Stambler)* 3/283
Airbone Early Warning: long range protection at a cost *(Dan Boyle)* 10/1164
Air Traffic Control automation *(Dan Boyle)* 5/491
British aerospace electronics (table) 9/959
Electronics at a high temperature *(Dan Boyle)* 4/391
French equipment manufacturers: a satisfactory situation 6/650
Helicopter electronics *(Dan Boyle)* 3/263
MLS — major international row threatens 3/215
Paris Air Show: electronics markets continue to develop *(Dan Boyle)* 8/892
Primary radars for ATC, evolution of *(B. M. Brown and Georgio Nucci)* 12/1287
Scotland takes a lead in ATC (Marconi distributed data system) 1/70

INDUSTRY (general)

AECMA address by Prof. A. Spinelli (" Can Europe take up the challenge? ") 1/14
AECMA president Allen Greenwood: " Europe on the brink " 2/116
Air Asia, new ownership at *(J. P. Geddes)* 12/1291
Airship, the renaissance of? *(Kurt Stehling)* 9/987
Boeing transports: technology trends in 1/66
Canadian aerospace industry — a major restructuring *(John Brindley)* 2/147
Canadian industry, further notes on 2/121
Civil aircraft sales and deliveries 1974 (table) 2/120
Coal-fuelled aircraft? (NASA alternative-fuels research) 1/15
Company results, selected, 1974 (tables) 4/325; 5/453; 9/932
Contracts (tables) 1/65; 3/299; 4/420; 6/702; 9/982; 11/1197
European aerospace industry, EEC action plan for 12/1238
European aerospace — the disunited states (editorial) 5/471
European air show circus, the (editorial) 12/1251
European helicopter manufacturers take up the challenge 3/242
European major space ventures 5/481
Europe in search of a civil aircraft policy (editorial) 11/1159
Europe's major civil aircraft programmes 5/474
Europe's major military aircraft programmes 5/478
Europe, what next for (editorial) 8/851
French aerospace industry feature 6/613
— seeking formula for continued success (airframe manufacturers) 6/615
— engine companies broadening the business base 6/647
— equipment manufacturers: a satisfactory situation 6/650
— space activities: growing emphasis on European programmes 6/667
— general aviation sector 6/679
— tactical missile production 6/682
French aircraft 1975 (table) 6/685
General aviation in the US: between two slumps? 2/167
German (West) aerospace industry: agonizing reappraisal in Bonn 7/772
German (West) aerospace industry (BDLI) statistics 1971-73 (table) 7/742
German (West) equipment industry (list of manufacturers) 7/816
Greenwood, Allen (AECMA president), address on European aerospace cooperation: " Europe on the brink " 2/116
HAA Show 1975: prosperity is the keynote *(J. P. Geddes)* 3/219
Holography: use in crack detection *(J. P. Geddes)* 7/811
Industrial roundup 1/63; 3/297; 4/418; 6/699; 7/808; 9/980; 11/1195; 12/1269
Italian aerospace industry (military programmes) 8/887
McDonnell Douglas Astronautics shifts with the market *(J. P. Geddes)* 1/56
MLS — major international row threatens 3/215
Paris Air Show 1975: electronics markets continue to develop *(Dan Boyle)* 8/892
Paris Air Show report 7/745
Production processes, the revolution in *(Irwin Stambler)* 10/1099
Seating and aircraft interiors, some significant aspects of 11/1204
Ten-tonne engines — shaping up for the sales battle 4/337
UK (British) aerospace electronics (table) 9/959
UK aerospace industry — awaiting Government decisions *(Derek Wood)* 9/951
UK aerospace industry: nationalization, how and why 3/214
UK aerospace industry nationalization — panacea or perdition (editorial) 4/335
US aerospace industry sales 1968-75 (table) 2/119
US-European aerospace cooperation, the outlook for 1/25

CONFERENCES AND EXHIBITIONS

AECMA general meeting, Brussels; Prof. A. Spinelli address " Can Europe take up the challenge? " 1/14
Airport 75 exhibition, Brussels: small but successful 11/1145
Airport 75 exhibition — Industrial roundup 12/1269
Cessna " Expo 75 " 1/17
Cranfield 75 — business aviation takes a bow 11/1180
European air show circus, the (editorial) 12/1251
IATA's Oslo AGM — can proposals become deeds? 11/1149
ICAA's 15th Annual Congress, Brussels 9/931
International meetings and conferences calendar 1/74; 2/196; 3/300; 4/421; 5/538; 6/704; 7/813; 8/901; 9/1000; 10/1119; 11/1216; 12/1307
(31st) Paris Air Show; exhibitors list 5/537
Paris Air Show 1975 report: slow start, hot finish 7/745
Paris Air Show report (part II): electronics markets continue to develop *(Dan Boyle)* 8/892
(26th) Reading Show (photos) 8/870
Reading Show 1975; little new to offer 9/993
Telecom 75, Geneva: applications satellites to the fore *(Dan Boyle)* 12/1252
Telecom 75: exhibitors list 10/1116

DATA TABLES

(Does not include tables relating specifically to subjects of articles listed elsewhere)
Aircraft, civil, sales and deliveries 1974 2/120
Air Forces of the World — 1975 1/79
Airline capacity offered, 1974 11/1159
Airliner (civil) sales and deliveries, Jan-June 1975 9/928
Airline orders 1/11; 2/115; 3/211; 5/447; 6/584; 7/739; 9/927; 10/1027; 11/1143; 12/1235
Airline results 1973/74 5/447; 7/739; 10/1029
Airline fleet, world, 1974 11/1160
Airliner sales, US and European 11/1161
Airline traffic, world, ICAO estimates for 1974 3/212
Airlines, Western European scheduled, 1973/74 results 4/319
Airports, selected, international traffic 1974 4/321
Airports, Swiss international, 1974 traffic 4/320
Airports, West German leading international, 1974 traffic 4/320
Airports, world's principal, 1973/74 traffic 7/740
Air transport trends, US, 1974 (FAA data) 6/586
Arab air carriers, operations 1973 10/1028
Ariane launcher consortium 6/669
Arms exporters, US, selected 6/588
Average costs per seat-km, 1963-1972 2/117
British Airways operating statistics 1970-75 9/968
Business jets, current selling prices 4/378
Cessna growth over past 30 years 1/17
Company results 1974 4/325; 5/543; 9/932
Cost excalation on USAF programmes 2/132
European earospace industry: sales, manpower, productivity, imports, space budgets, satellites, etc 5/472-482
French aerospace industry statistics 1965-75 6/616
French aircraft 1975 6/685
French satellite programmes 1965-75 6/668
French third-level traffic (ATAR airlines) 5/506
French turbine engines, principal 6/647
Gas turbines, industrial and marine 12/1307
German (West) Aerospace Industry Association (BDLI), sales statistics 1971-1973 7/742
German (West) aerospace industry statistics 7/772
German (West) equipment industry list 7/816
Helicopters, current world range — 1975 3/293
IATA member airlines data (Pillars of world air transport) 10/1088
Military exports, US, 1974 6/589
NASA research and development budgets 1974-1976 4/326
Satellites to date 3/218; 7/744; 11/1148
Security conventions, ICAO, ratification status 2/178
Simulator manufacturers, major 11/1215
Strategic missiles, US and USSR compared 8/856
Third-level airline data 5/500-502
Transatlantic traffic, IATA airlines, 1974 5/448
VTOL programmes, current, compared 4/377
UK (British) aerospace electronics 9/959
UK (British) aerospace industry statistics 9/951-958
US aerospace industry sales 1968-75 2/119
US general aviation aircraft shipments 1973/74 3/216

REGULAR FEATURES

Book reviews 2/196; 3/300; 5/538; 6/704; 7/812; 10/1118
Contacts, selected 1/65; 3/299; 4/420; 6/702; 9/982; 11/1197
Industrial round-up 1/63; 3/297; 4/418; 6/699; 7/808; 9/980; 11/1195; 12/1296
International meetings and conferences 1/74; 2/196; 3/300; 4/421; 5/538; 6/704; 7/813; 8/901; 9/1000; 10/1119; 11/1216; 12/1307
Letters to the Editor 1/74; 2/196; 3/300; 4/415; 6/704; 7/813; 8/899; 10/1119; 12/1307
The world of aerospace 1/11; 2/115; 3/211; 4/319; 5/447; 6/584; 7/739; 8/835; 9/927; 10/1027; 11/1143; 12/1235
